

Score

Maximum theoretical score: 100

Minimum score to be ranked: 40

Element	Score	Aspects to be taken into consideration
1. Partnership	10	Number of participants; quality of the consortium; consistency of their expertise.
2. Summary	30	The summary is clear, complete, concise, original and openly describes its expected results.
3. Adaptability and dissemination	15	The project can be easily adapted to other contexts. The results are widely and well disseminated.
5. Language	5	The project includes more than one ICOM official language, or non-official languages.
6. Budget	25	The budget is detailed, consistent, coherent and well presented.
7. Innovativeness	5	The project is creative, original and offers new ideas and solutions for museum practice.
8. Sustainability	10	The project makes a careful use of resources and assesses its expected long-term impact. It fosters the involvement of the communities, establishes or reinforces long-term partnerships and is environment-friendly. Ideally, the project relates to at least one of 17 Sustainable Development Goals.
